FALL PROTECTION PLAN - Stop Construction Falls

fall: [verb] to descend freely by the force of gravity. to hang freely. to drop oneself to a lower position. to come or go as if by falling.

Fall Definition & Meaning - Merriam-Webster

Falls are one of the most common causes of childhood accidents. Falls are also a serious risk for older children. Each year, around 27,000 children aged 5-14 are admitted to hospital after a fall. How can falls be prevented? One of the most common reasons that young children fall is that their rapid development takes parents and carers by surprise.
