Apple

Apple counts “design” as a foundation principle – the starting point of the entire product development process. It all started with the vision of Steve Jobs, when he founded a company that will make computers. He was not about to settle for just any design; it had to be better than good. In fact, the design had to be “great”.

Why The Apple Design Is So Successful | Cleverism

Apple Design delves into about 200 such products, most of which have been overseen by Jonathan Ive, the company’s vice president of industrial design (not to mention the late great Steve Jobs himself). Think of it as an excellent gift/companion piece for those who have already devoured Walter Isaacson’s best-selling biography.
