Ottoman architecture is the architecture of the Ottoman Empire, which emerged in northwestern Anatolia in the 13th century. The architecture of the empire developed from Turkish and the earlier Seljuk architecture, with influences from Byzantine and Iranian architecture along with architectural traditions of the Balkans and other parts of Middle East. The classical architecture of the Ottoman ...

Traditionally, architectural practice has been dominated by the eye/sight. In recent decades, though, architects and designers have increasingly started to consider the other senses, namely sound, touch (including proprioception, kinesthesia, and the vestibular sense), smell, and on rare occasions, even taste in their work. As yet, there has been little recognition of the growing understanding ...

In the interior, architectural sculpture may cover the mural surfaces, as on the inner facade of Reims Cathedral, but that is unusual, as are sculptured pillars like the one in Strasbourg Cathedral. On the other hand, statues very soon appeared on the pillars of choir and nave as in the Sainte Chapelle (1241-48) at Paris and Cologne Cathedral.

In Penone's work, sculptural transformations draw the viewer's attention to details that have long existed but are easily overlooked. By bringing the grandeur—as well as the modesty and intimacy—of raw but also cultural material into various settings, Penone raises questions about sculpture and its essence.
