An annotated atlas of the freshwater fishes of North Carolina. Our checklist includes some fishes traditionally considered marine, but that do spend a portion of their lives in freshwater environments. Because of this, you will see some duplication with the marine fishes checklist.

Freshwater Fishes of North Carolina - NCFishes.com

Cyprinidae is a family of freshwater fish, commonly called the carp or minnow family. It includes the carps, the true minnows, and relatives like the barbs and barbels. Cyprinidae is the largest and most diverse fish family and the largest vertebrate animal family in general, with about 3,000 species of which only 1,270 remain extant, divided into about 370 genera.

Cyprinidae - Wikipedia

Jamaica (/ dʒ ə ˈ m eɪ k ə / (); Jamaican Patois: Jumieka) is an island country situated in the Caribbean Sea. Spanning 10,990 square kilometres (4,240 sq mi) in area, it is the third-largest island of the Greater Antilles and the Caribbean (after Cuba and Hispaniola). Jamaica lies about 145 kilometres (90 mi) south of Cuba, and 191 kilometres (119 mi) west of Hispaniola (the island ...
