Since the Living Environment Regents Exam took the place of the Biology Regents Exam, the five sections of the exam cover a range of major topics pertaining to biology. These topics are determined by Standard 4 of the New York Common Core State Standards and include seven “Key Ideas” encompassing scientific concepts, principles, and theories.

The Best Living Environment Regents Review Guide 2021

Classifying species can be a difficult and particularly gray area. The key to this question, however, is that mules are sterile. This is an example of post-zygotic reproductive isolation. Hybrids that are sterile are not considered unique species. Simply identifying traits or chromosome number is not enough to determine species.

Understanding Reproductive Barriers - AP Biology

The Earth Science exam consists of two main components: a lab performance test and a written test. The lab performance test is about 15% to 20% of your total Earth Science Regents score. It'll be administered at your school, on a date your school decides. It'll consist of three lab stations and will be worth a total of 16 points.
