Electric Mohan Solutions

An electric power system is a network of electrical components deployed to supply, transfer, and use electric power. An example of a power system is the electrical grid that provides power to homes and industries within an extended area. The electrical grid can be broadly divided into the generators that supply the power, the transmission system that carries the power from the generating ...

Diamond v. Chakrabarty, 447 U.S. 303 (1980), was a United States Supreme Court case dealing with whether living organisms can be patented. Writing for a five-justice majority, Chief Justice Warren E. Burger held that human-made bacterium could be patented under the patent laws of the United States because such an invention constituted a "manufacture" or "composition of matter".

Are acchhe din here to stay for the cement sector for 12 to 18 months looking at the demand and supply scenario? I personally feel that the acchhe din will start. This will be after 12 months or so because of demand with a snowballing effect on a higher base. As the base right now is quite low, we are comparing from the last year and everybody has seen 20-30% growth, but that cannot always be ...
