### Acrylic Paint | BLICK Art Materials

With so many colors available, it can be difficult to know which ones you should buy when you first start painting with acrylics. While we all know that it is possible to mix a rainbow of colors from just three primary colors (blue, red, and yellow), most of us don't, preferring the ease of being able to squeeze a particular desired color directly from a tube; and some colors from the tube ...

### Basic Color Palette to Start Painting with Acrylics

Viscosity refers to the consistency or thickness of the paint. Heavy body acrylics have a thick, buttery consistency (similar to oil paints) that retains brushstrokes and facilitates color mixing and blending. Alternatively, fluid acrylics are thinner (but contain the same pigment concentration) and are suited to detail work, staining, watercolor techniques, and dry-brush work.

### Acrylic Paint Guide: Everything You Need to Know Before ...

so I provide a mixing formula to get the same color. In a few cases, there is no color formula that works for a given brand and color. When that happens, then one of the other two brands does have a formula that works for that color. Page: 12 MRH Guide to acrylic painting • TABLE OF CONTENTS

### THE Model Railroad Hobbyist's Guide to acrylic painting

Acrylic paint is a fast-drying paint made of pigment suspended in acrylic polymer emulsion and plasticizers, silicon oils, defoamers, stabilizers, or metal soaps. Most acrylic paints are water-based, but become water-resistant when dry. Depending on how much the paint is diluted with water, or modified with acrylic gels, mediums, or pastes, the finished acrylic painting can resemble a ...
