Their bodies were weaker, their minds feeble, their role subservient. Charles Darwin asserted that women were at a lower stage of evolution, and for decades scientists—primarily men—found evidence to support his claim. In Inferior, acclaimed science writer Angela Saini weaves together a fascinating—and sorely necessary—new science of women.

Amazon.com: Inferior: How Science Got Women Wrong-and the ...

Overview. What science has gotten so shamefully wrong about women, and the fight, by both female and male scientists, to rewrite what we thought we knew. For hundreds of years it was common sense: women were the inferior sex. Their bodies were weaker, their minds feebler, their role subservient. No less a scientist than Charles Darwin asserted that women were at a lower stage of evolution, and for decades, scientists—most of them male, of course—claimed to find evidence to support this.
