Development. The Rotax 582 is based upon the earlier Rotax 532 engine design and was designed for ultralight aircraft. The 582 increased the bore from the 532 engine's 72 to 76 mm (2.8 to 3.0 in). This increased the displacement from 521.2 cc (31.81 cu in) to 580.7 cc (35.44 cu in), an increase of 11%. The increased displacement had the effect of flattening out the 532's torque curve and ...

Experimental/Homebuilt Aircraft For Sale - Used & New 1 - 24

I bought this for my Kitfox model 1 mainly because the plane has limited flight instruments and a panel that lacks the space to add much instrumentation. It has been an incredibly welcome addition in that role since it is portable and battery powered. The portability also allows it to be easily moved from one aircraft to another.
