KS3 Chemistry - BBC Bitesize

Science education in England is generally regulated at all levels for assessments that are England's, from 'primary' to 'tertiary' ().Below university level, science education is the responsibility of three bodies: the Department for Education, Ofqual and the QAA, but at university level, science education is regulated by various professional bodies, and the Bologna Process via the QAA.

Science education in England - Wikipedia

In science, students may take single, double or triple science. Confusingly, this doesn't mean they have separate lessons and take separate GCSEs in biology and/or chemistry and/or physics. Rather, each GCSE incorporates all three subjects: so double science counts as two GCSEs, and triple science as three, with the teaching time increasing ...

HPL helps good schools to become world class, through supporting them to develop their own interpretation of the High Performance Learning Framework (or their 'unique choreography', as one head teacher put it) and implement the principles of High Performance Learning throughout their schools.

Welcome to High Performance Learning - High Performance ...

As you mix together your ingredients they form one type of substance, but it is only a physical change. It is considered as a physical change because although it may be difficult, there is a way to separate these ingredients. But when it's heated in the oven, a chemical reaction occurs and new bonds are formed. It creates chemical reactions.

Why is baking a cake a chemical change? - Cake Baking

mathematics, science, and design and technology, and provides insights into both natural and artificial systems. The core of computing is computer science, in which pupils are taught the principles of information and computation, how digital systems work, and how to put this knowledge to use through programming. Building on this knowledge and

National Curriculum - Computing key stages 3 and 4

By the end of each key stage, pupils are expected to know, apply and understand the matters, skills and processes specified in the relevant programme of study. Subject content Key stage 3.

National curriculum in England: citizenship programmes of ...

Children will look at different habitats in their local area, for example going on welly walks, going to forest school, going on trips to the park, pond dipping, searching the school garden, field or playground and participating in mini-beast hunts. Children will use identification charts and classification keys to identify the creatures they find.

What is a habitat? | TheSchoolRun

The link between the arts and science has always been a complex one, but you are going to create an exhibition of art work that not only reflects the beautiful complexity of the human body but also acts as an accurate and informative presentation of the complex systems that help make us human. Exhibit your art for others to see and learn from in this Year 6 Science Block.
