LANGUAGE, TRUTH AND LOGIC - s-f-walker.org.uk

Language, Truth and Logic is a 1936 book about meaning by the philosopher Alfred Jules Ayer, in which the author defines, explains, and argues for the verification principle of logical positivism, sometimes referred to as the criterion of significance or criterion of meaning. Ayer explains how the principle of verifiability may be applied to the problems of philosophy. Language, Truth and Logic brought some of the ideas of the Vienna Circle and the logical empiricists to the ...

Language, Truth, and Logic - Wikipedia

Logical positivism, while massively influential, is widely regarded as a failure, and this is the manifesto of that failed movement. For that reason, unless you are a serious student of philosophy, there's not much point in reading Language, Truth, and Logic, especially given that Ayer's own principle of verification has been more or less completely replaced in the scientific community by ...

Language, Truth, and Logic by A.J. Ayer

AJ 'Freddie' Ayer, 1936 Language, Truth and Logic "The principles of logic and mathematics are true simply because we never allow them to be anything else." We reject metaphysics and knowledge of a transcendent reality. Kant accused metaphysicians of ignoring the limits of understanding, we accuse them of disobeying the rules of significant language.

Ayer (1910–89) in his manifesto Language, Truth and Logic (1936), became influential in British philosophy. According to the logical positivists, every true sentence is either a logical truth or a statement of fact. Moral judgments, however, do not fit comfortably into either category. They cannot be logical truths, for these...
