A typewriter is a mechanical or electromechanical machine for typing characters. Typically, a typewriter has an array of keys, and each one causes a different single character to be produced on paper by striking an inked ribbon selectively against the paper with a type element.At the end of the nineteenth century, the term 'typewriter' was also applied to a person who used such a device.

Typewriter - Wikipedia

Cheap essay writing service. If you need professional help with completing any kind of homework, Solution Essays is the right place to get it. Whether you are looking for essay, coursework, research, or term paper help, or with any other assignments, it is no problem for us.
