Mitchell 1 “Estimated Labor Times” are to be used as a guide only. The actual time taken can be expected to vary to meet individual repair shop and vehicle conditions, equipment used, etc. Our labor times are for estimating only. We can’t anticipate every situation a technician will encounter. We create labor times that reflect how

MITCHELL 1 LABOR TIMES

Auto repair estimates used to be written by hand using Mitchell (or other publishers) estimating guides. This involved writing all the damage on an estimate form and looking in the estimating guide to get all the parts prices and labor times needed to estimate the job. Then the estimator would calculate the total. Computer-generated

Scientific objectivity is a property of various aspects of science. It expresses the idea that scientific claims, methods, results—and scientists themselves—are not, or should not be, influenced by particular perspectives, value judgments, community bias or personal interests, to name a few relevant factors.

Scientific Objectivity (Stanford Encyclopedia of Philosophy)
