Etymology. The word telecommunication is a compound of the Greek prefix tele (τήλε), meaning distant, far off, or afar, and the Latin communicare, meaning to share. Its modern use is adapted from the French, because its written use was recorded in 1904 by the French engineer and novelist Édouard Estaunié.

Communication was

One of the causes of intersymbol interference is multipath propagation in which a wireless

signal from a transmitter reaches the receiver via multiple paths. The causes of this include reflection (for instance, the signal may bounce off buildings), refraction (such as through the foliage of a tree) and atmospheric effects such as atmospheric ducting and ionospheric reflection.
