It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' texbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Went to try out this phone, had no idea would be able to root it, was just looking for a basic phone with a decent display and battery. Thanks for the guide @mingkee! My first device borked on the LMSA update, it broke the wifi on it. Returned for a new phone, unlocked the BL and this one working just fine. Nice and rooted and no more ads.
