The best part is that it does not need you to register and lets you download hundreds of free eBooks related to fiction, science, engineering and many more.

### New Hyperlipidemia Guidelines

Introduction. Hyperlipidemia is considered one of the major risk factors causing cardiovascular diseases (CVDs). CVDs accounts for one third of total deaths around the world, it is believed that CVDs will turn out to be the main cause of death and disability worldwide by the year 2020 1,2.. Hyperlipidemia is an increase in one or more of the plasma lipids, including triglycerides, cholesterol ...

### A Review Article on Hyperlipidemia: Types, Treatments and ...

Genetic analysis localized this trait to the gene encoding for PCSK-9 protein, thus sparking a decade-long effort to develop a new set of drugs to lower cholesterol. Loss of function of PCSK-9 protein, either through a genetic trait or by blocking the protein with a monoclonal antibody such as evolocumab and alirocumab dramatically reduces LDL ...
