To date, no pharmacotherapy has been established to prevent aortic valve calcification. However, novel promising therapeutic targets have been recently identified. This review summarizes the current knowledge of pathomechanisms involved in aortic valve calcification and points out novel treatment strategies.

Aortic Valve Stenosis: From Basic Mechanisms to Novel ...

However, it is imperative that patients first be clinically stratified, as current data suggests that serum D-dimer assays are only useful to rule out disease in low-risk patients. Also larger RCT trials are warranted to validate these results, prior to advocating usage of D-dimers to rule out disease in such patients. Aortic aneurysm
