Regulating Sexuality Legal Consciousness In

Human sexuality is the way people experience and express themselves sexually. This involves biological, erotic, physical, emotional, social, or spiritual feelings and behaviors. Because it is a broad term, which has varied with historical contexts over time, it lacks a precise definition. The biological and physical aspects of sexuality largely concern the human reproductive functions ...

Human sexuality - Wikipedia

The social construction of sexuality refers to the way in which socially created definitions about the cultural appropriateness of sex-linked behavior shape the way people see and experience sexuality. This is in marked contrast to theories of sex, gender, and sexuality that link male and female behavior to biological determinism

In Ancient Mesopotamia, the legal status of women was related directly to how females were characterized in society. Most mentions of women were in relation to fertility, property, or sex and these laws dictated both the severity of the punishment as well as the way the situation was handled by the community based on the social status of the person in question. [3]
