architectural movement La Tendenza, is also one of the most influential theorists writing today. The Architecture of the City is his major work of architectural and urban theory. In part a protest against functionalism and the Modern Movement, in part an attempt to restore the craft of architecture to its position as the only valid ...

The Architecture of the City | The MIT Press

'The Architecture of the City' was firstly published in 1966 by Aldo Rossi, based on his notes and lectures, when functionalism predominated. As Rossi stated, this book did not cover new issues, but it was sensational for architects in that era because it gave them a chance to rethink architecture with respect to the city as a meaning of collective life, history, and reality instead of from a functional aspect.

The Architecture of the City - Aldo Rossi - Henry McNeil ...

Aldo Rossi starts from a personal interpretation of Boullè's architecture, in which he finds the roots of what he calls "exalted rationalism". And then, using the concept of "autonomous architecture" postulated by Kauffmann and concerning the purification of forms, he elaborates a fundamental concept: the autonomy of architecture.
