If that doesn't work, check the manual that came with your headphones. An LED indicator typically flashes blue and red or you'll hear a noise through the headphones when they're ready to roll.

How to use Bluetooth wireless headphones

In a market where wireless headsets go for \$100+, this headset is the cheapest I've seen from a trusted brand like Corsair. As for the experience, it uses a 2.4 GHz USB receiver for audio. The receiver is a full size stick unlike the stubs Logitech devices have which is a gripe of mine, but it's not a huge dealbreaker.
