Physeo Homepage - Physeo

The first edition of the Textbook of Medical Physiology was written by Arthur C. Guyton almost 55 years ago. Unlike most major medical textbooks, which often have 20 or more authors, the first eight editions of the Textbook of Medical Physiology were written entirely by Dr. Guyton, with each new edition arriving on schedule for nearly 40 years.

Guyton and Hall Textbook of Medical Physiology

Kenneth S. Saladin is Professor of Biology at Georgia College & State University in Milledgeville, Georgia, where he has taught since 1977. Ken teaches human anatomy and physiology, introductory medical physiology, histology, animal behavior, and natural history of the Galápagos Islands.

OpenStax

This is a lab manual for a college-level human anatomy course. Mastery of anatomy requires a fair amount of memorization and recall skills. The activities in this manual encourage students to engage with new vocabulary in many ways, including grouping key terms, matching terms to structures, recalling definitions, and written exercises. Most of the activities in this manual utilize anatomical ...

Physiology as a distinct discipline utilizing chemical, physical, and anatomical methods began to develop in the 19th century. Claude Bernard in France; Johannes Müller, Justus von Liebig, and Carl Ludwig in Germany; and Sir Michael Foster in England may be numbered among the founders of physiology as it now is known. At the beginning of the 19th century, German physiology was under the ...

Exercise Physiology Definition. Exercise physiology is the study of the body's responses to physical activity. These responses include changes in metabolism and in physiology of different areas of the body like the heart, lungs, and muscles, and structural changes in cells. The word exercise comes from the Latin exercitus, "to drive forth," while physiology comes from the words physis ...

The EF of the control loop in the figure is 58% compared to 54% in red loop representing diastolic

dysfunction. Heart failure caused by diastolic dysfunction is commonly referred to as heart failure with preserved ejection fraction (HFpEF). Because stroke volume is decreased, there will also be a decrease in ventricular stroke work.
