Chapter 8 Flashcards | Quizlet

The HRES assimilation system contains two main components: incremental 4D-Var (Courtier et al., 1994) for the atmosphere plus ozone, and the land DA (LDAS). The interaction between these is an example of weak coupling (Penny et al., 2017), where the influence from the land surface and other observations is only mixed in the next analysis via ...

The ERA5 global reanalysis - Wiley Online Library

Chapter 22 felt a little out of place but it seems compulsory for financial authors to include a "just for fun" final chapter. There was a quick discussion at the end of Chapter 14 on performance attribution, which felt rushed and I feel it would be hard for the non-financial portion of the target audience to follow. These are minor items.
